Benti Textile has been active at the textile industry since 1982; presents its upholstery fabrics (indoor&out-door), which are produced by experienced and professional staff, using high-tech at its own 7,500 square meters facilities to international and domestic markets with its brand "ADDOBBARE".

Since its establishment, Benti Textile evolves with customer satisfaction and innovative approach, continues with its annual production in excess of 3 million meters at Demirtas Industrial Zone in Bursa/TURKEY, exports %60 of its production directly from factory and from the branch in Warsaw/POLAND.

OUR SERVICES

Benti Textile employs qualified and innovative individuals who have the necessary skills and years of experience to respond today's home textile needs. Produces upholstery (indoor-outdoor) and drapery fabrics with latest high technology Staubli jacquard & Dornier machines.

To meet the exclusive requirements of the customers, Benti Textile is prepared and able to customize any product. The main objective of its production is to ensure providing products at the most efficient way, at high quality standards and with the shortest delivery times. Customer satisfaction is the biggest motto and motivation.

As one of the first integrated plants of the region, Menderes Textile started to be built in 1958 within the borders of Sarayköy district of the province of Denizli under the name of Sarayköy Pamuklu Mensucat. The plant which comprised spinning, weaving and dyeing-finishing departments was put into service in 1962. Targeted to grow with higher investments, the plant which had contributed to the country's economy for many years became part of the Menderes Textile structure founded by Osman Akça in 1983.

Now Menderes Textile, a leader in its industry is the largest vertically integrated fabric & home textile factory in Europe.

Operating within the body of Akça Holding; Menderes Textile not only has its 4 main factories which are Yarn, Weaving, Finishing and Confection, it also has many auxiliary facilities including the Cogeneration and Waste Water Treatment facilities.

Menderes Textile, with the help of internationally recognized certificates that encompass management, environmental and social system compliances standards, produces the best quality Bed Linen, Quilt Cover, Pillow Cover, Liner Interlining, Meter, Upholstery and Shirting Fabric products with its experienced team, innovative production methods and innovative approach. Menderes Textile converts the world's highest quality cotton into 60.000 kg yarn, 750.000 m grey cloth, 950.000 m dyed and printed cloth, 120.000 m liner-wire and 80.000 sets of sheets and linens in 24 hours.

Menderes Textile, which currently employs 3250 people, is a publicly traded company under Borsa İstanbul with a paid capital of TL 250 million and is continuously audited. All the information about the company and its activities can be accessed through public channels in a transparent manner.

Menderes Textile, has a vision "To supply / produce first quality products to the world by using innovative management and inspection systems with international validity.

Menderes will continue in line with its vision to be among the institutions that improve the brand's competitiveness. This vision will continue to consistently produce new projects with stakeholders to make it sustainable.
